Welcome to **<C\*deVita/>**  
the TCS Coding Contest

Sports are a great way of bringing out character of a person. A spectrum of emotions ranging from hope to despair, monotony to excitement, boring to interesting, mediocre to extraordinary performances are seen in every sport known to mankind. The purpose of sports, apart from physical and mental fitness, is to evoke these emotions. TCS feels strongly about promoting the culture of **Programming-As-A-Sport**. TCS CodeVita, a programming contest, is TCS' way of attracting young impressionable college students to adopt this culture and experience joy of programming.

### Global CodeVita 2016 - TCS Coding Contest - Terms and Conditions

CodeVita is TCS' flagship programming competition meant for college students across the world. At registration time all the information will be taken at face value and all registered participants will be allowed to participate in the first round of Global phase of CodeVita. Successful candidates who will have qualified to move into further rounds will need to prove their affiliation as students to their academic institutes as mentioned at the time of registering for CodeVita. At a broad level the process will roughly be as follows, but the details may vary

1. You may receive communication from TCS if you have qualified to the next round
2. You may need to provide proofs such as
  - College identity card
  - Bonafide certificate from your academic institution
  - Institution affiliation to University

Since CodeVita is meant for current students studying in academic institutions, the onus of proving that you as a participant are a current student is on you. Inability to prove that you are a current student affiliated to a bonafide academic institution will result in non-advancement to the higher rounds of CodeVita. By entering the contest, each team and its members thereof confirm and agree to the following terms and conditions:

- The team and its members thereof acknowledges that the solution submitted will be original work created solely by the team, and that the solution does not infringe on copyrights, trademarks, moral rights, rights of privacy/publicity or intellectual property rights of any person or entity, and that no other party has any right, title, claim, or interest in the solution.
- The application must not contain content where any person/s would be required to undertake actions that is inappropriate, indecent, obscene, violent, hateful, tortuous, defamatory, slanderous; that promotes racism or hatred against any group or individual or that promotes discrimination based on race, sex, religion, nationality, disability, sexual orientation or age; or that is unlawful, in violation of or contrary to the laws or regulations in the state or province where the application is developed.
- The team and its members thereof are the sole authors of the solution, and the solution is the team's original work.
- The team and its members thereof have not licensed or disposed of any rights in the solution that would conflict with any of TCS use (if any).
- Participants who have submitted their solution are either the copyright owners of the component parts of that work or are posting the work under license from a copyright owner or otherwise as permitted by law. TCS does not claim ownership rights in your works or other materials posted by you.
- For the sole purpose of enabling TCS to make your solution available through our portal, you grant TCS a non-exclusive, royalty-free license to reproduce, distribute, re-format, store, prepare derivative works based on, and publicly display your content. You agree not to distribute any part of the portal other than your

Partner Requests

## Registration and Team Formation Process

**STEP 01**

**Register, ideally with your educational institute mail id.**  
Optionally send Registration Invites to your friends.  
Send/Receive Partner Requests.  
(Note: Team should contain exactly 2 members.)

**STEP 02**

**Decide your partner**  
Invite your friend to partner with you or  
Accept partner request sent to you.

**STEP 03**

**Partner Finalization**  
Only one partner request that you have sent can be accepted. Others will expire the moment any one partner request is accepted.  
You can accept only one partner request you have received, provided they have not already expired.

**STEP 04**

**Team Formation**  
If your partner request either sent or received is successfully accepted, your team is formed.  
Once your team is formed you can not send or received partner request.

**STEP 05**

**Choosing Team Name**  
By convention the sender of the partner request of a successfully formed team is termed as Team Leader.  
By convention the accepter of the partner request of a successfully formed team is termed as Team Member.  
Only team lead will get an option to choose the team name.
